ABSTRACT In the current scenario the focus of Corporate Governance drastically changed and in which part of Corporate Governance – Board Evaluation played an important role. This research paper indicates board effectiveness is related with Board Evaluation. The concept of Board Evaluation in India is at a nascent stage. It has been brought to SEBI’s notice by market participants that as the number of listed entities in India is very large, many of them may not have much clarity on the process of Board Evaluation and hence, may need further guidance. Accordingly SEBI has come out with Guidance Note on Board Evaluation. Therefore, Board Effectiveness can be related with Board Evaluation. The further details of this topic are outlined and examined in this research paper.

Key words: CORPORATE GOVERNANCE, BOARD EVALUATION, BOARD EFFECTIVENESS

INTRODUCTION: Corporate governance is the system of rules, practices and processes by which a company is directed and controlled. Corporate governance essentially involves balancing interest of a company’s many stakeholders, management, customer, suppliers, financiers, government and the community. Since corporate governance also provides the framework for attaining a company’s objectives, it encompasses practically every sphere of management, from action plans and internal controls to performance measurement and corporate disclosure.

The Securities and Exchange Board of India(SEBI) vide its circular no SEBI/HO/CFD/CMD/CIR/P/2017/004 dated 5th January,2017 has issued guidance note on how companies should evaluate the performance of their directors to ensure objectivity and improve corporate governance. According to the guidelines, companies should consider whether discussions among board members are healthy and free-flowing, whether critical and dissenting suggestions are welcome and whether conflicts of interest are monitored and dealt with SEBI. The note is essentially intended as guidance note and does not constitute new rules. It is to educate the listed entities and their boards of directors about various aspects involved in the board evaluation process and improve their overall performance as well as corporate governance standards to benefit all stakeholders. Companies should check if
they are allowing independent directors to perform their roles effectively and whether directors are allowed to exercise their own judgment and voice their opinions freely.

SEBI’s Guidance Note on Board Evaluation is not intended to act as interpretation of the law, but serves as a great and much needed road map for implementation of several provisions in the Companies Act, 2013, and SEBI regulations on corporate governance. Auditors have guidance from the Institute of Chartered Accountants in respect of several areas of their work and increasingly Company Secretaries have from their alma mater. However, the Board of Directors and individual directors generally find their role, obligations and even liabilities having increased manifold but yet do not have detailed formal guidance as to how they are to carry on their work. This knowledge gap is felt even more, since most directors may not be well conversant with the law. The Guidance Note, to reiterate, does not have a binding effect but diligent compliance in letter and spirit can be a good defense in case of action against independent directors by regulators. Such action can be expected to be manifold considering that corporate governance is now a law with severe consequences for violations. Indeed, it is possible. So after considering all we can definitely said that-

“A Good Corporate Governance system plays most outstanding role in modern business world.”

MEANING OF CORPORATE GOVERNANCE:

The Institute of Company Secretaries of India (ICSI) defines: “Corporate Governance is the application of best management practices, compliance of law in letter and spirit and adherence to ethical standard for effective management and distribution of wealth and discharge of social responsibility for sustainable development of all stakeholders.”

REVIEW OF LITERATURE:

In India, Board evaluation was a non-mandatory requirement under Clause 49 of the Listing Agreement, prior to the announcement of the Securities and Exchange Board of India (SEBI) following its Board meeting on 13th February, 2014, to amend Clause 49.

SEBI’S GUIDANCE NOTE ON BOARD EVALUATION

India has moved recently from a voluntary Board evaluation under Clause 49 of the Listing Agreement (SEBI) and Corporate Governance Voluntary Guidelines of MCA (2009) to a mandatory Board evaluation under Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (SEBI LODR).

The Companies Act, 2013 and SEBI LODR provide for several mandatory provisions for Board Evaluation on who is to be evaluated, who is to evaluate such persons, disclosure requirements, etc.
